

INSTRUCTIONS ON HOW TO CREATE YOUR OWN **Gravel-Lok** GRAVITY WAND

AGGREGATE BONDING SYSTEM

A - 14" long piece of 3/4" diameter PVC pipe
 B - 23.5" long piece of 3/4" diameter PVC pipe
 C - 9" long piece of 3/4" diameter PVC pipe
 D - PVC end cap
 E - PVC 45 degree piece

F - 3/4" diameter valve
 G - Coupler with 3/4" thread
 H - 3/4" thread to 3/4" hose connection (2 pcs)
 I - 3/4" diameter hose
 * Length of hose depends upon the distance between the container and the wand.

- Once the Gravity Wand is assembled drill 1/8" diameter holes in bottom of piece A, no more than 24 holes, spaced about 1/2" apart.
